BALTON OPEN FIELD KIT

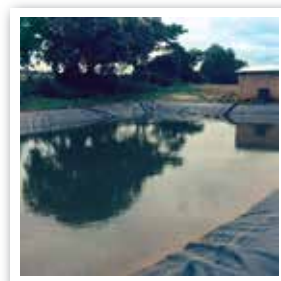

HIGH QUALITY DRIP IRRIGATION

- Gravity fed drip irrigation system 250m² to 1,000m²
- Pump fed drip irrigation system 2,000M² - 4,000M²
- Provides maximum efficiency in water usage
- High quality driplines with wide water passage
- Easily filled and drained
- Enables fertilizing through the system
- Simple installation and maintenance

SOLID WATER TANK (1,000 to 5,000 Litres)

- High quality material
- Easily portable
- Easy to fill water from top
- All connections and tank cover provided

(OR)

RESERVOIR

- Tailor made reservoir for the system requirements
- Low cost water accumulation solution
- especially designed LDPE with UV and chemicals resistance characteristics

FERTILIZERS

- Wide range of high quality fertilizers
- Defined application amounts for one season
- Maximizing target yields
- Convenient pack sizes

PUMP

Especially designs to meet the system requirements Direct water supply to irrigation system

HIGH QUALITY SEEDS

High quality Hybrid seeds for maximum potential yield for wide range of crops for wide range soil and weather conditions

AGRO-CHEMICALS

- Full range of High quality Agrochemicals for all crops
- Covers complete crop season
- Meeting European Standards
- Defined target for every pesticide
- Guided amounts and rates of application
- Agronomic support

Farming is Cool

BALTON OPEN FIELD KIT

For 50 years Balton Tanzania has been empowering farmers through modern technologies to achieve high yields and create sustainable businesses

Balton open field Kit is a complete set of tools for sustainable farming ranges between 250m² to 4,000m² gravity / pump fed drip irrigation system, designed with collaboration of Netafim, the world's pioneer in drip irrigation.

From rain-fed agriculture
to brain-fed agriculture

BALTON SUPPLIED IRRIGATION SYSTEM ADVANTAGES

- Efficient use of water, nutrients, fertilizers and crop protection products
- Reduces labor and machinery use
- Enables planning and crop timing
- Reduces soil erosion
- Reduces contamination of reservoirs and aquifers
- Saves energy

At Balton Tanzania, we listen, identify problems, find solutions and deliver unique, tailor made irrigation solutions that will allow our farmers to achieve the best quality and the highest yields
